Sistema di riferimento: UTM ED 50 33N

The main map is a detailed topographic and hydraulic plan of the Tevere river basin. It features a coordinate grid with UTM coordinates (31064, 31264, 31464, 31664, 31864, 32064) along the top and bottom edges, and elevation coordinates (464131, 464132, 464133, 464134, 464135, 464136) along the left and right edges. The map shows the river's course from the upper left towards the lower right. Various colored areas represent different flood risk levels: green for R2, cyan for R3, and red for R4. Yellow and orange areas represent different fluvial bands (Fascia A, B, C). A purple outline indicates the limits of the Municipality of Rome, and an orange dashed line indicates the limits of the PS5. A black dashed line shows the limits of the fluvial corridor. The map also includes a scale bar (0 to 1 km) and a north arrow in the bottom right corner.
